LYN BILLS TO THE GOVERNOR. One Provides for Depression of Railroad Tracks in Atlantic Avenue -Mr. Hatch's Curfew Bill Amended So as to Apply to Its Author Only and Recommitted To Change the Color of State Flag From Buff to Blue.

ALBANY, March 27.-Three Brooklyn bills were passed over Mayor Van Wyck's veto in the Assembly to-day. One was Senator Wagner's, providing for the depression of the Long Island Railroad tracks on Atlantic avenue in Brooklyn Messrs McKeown and Delaney (Dem., Kings) voted with the Republicans and Mr. Davis (Rep., N. Y.) voted with the Democrats to sustain the Mayor. The other bills were Mr. Remsen's, relating to the city paying for the improvement of Reinsen and Bedford avenues Messrs Morgan and Price (Rep., Kings) voted with the Democrats against passing the bills over the Mayor's veto.

By a party vote the Assembly also passed over the Mayor's veto Senator Russell's bill annexing the villages of Bath and East Greenbush to the city of Rensselaer, thereby making Rensselaer surely Republican in

Both houses of the Legislature to-day adopted a resolution recalling from Mayor Van Wyck Assemblyman Morgan's bill providing for the construction of a storage reservoir in Forest Park, Queens borough, to give Brooklyn an additional water supply The Mayor objects to the mandatory provisions of the measure and says if it is amended to make the bill permissive he will sign it at once. Mr Morgan will comply The Assembly was in a chaffing mood to-

day and had Iun at the expense of Mr. Hatch, of Steuben county. He introduced early in the session a bill authorizing third class cities and villages to adopt curfew ordinances, which were designed to keep children under 16 years of age off the streets after 9 o'clock at night unless accompanied by a guardian. The Cities Committee changed the bill so as to apply to the city of Hornellsville only. Today, when the bill came up on second reading, Mr. Rierdon (Tam., N. Y.) offered an amendment, which was unanimously adopted, striking out the words "children under 16 years of wherever they appeared in the bill and substituted Hyatt C. Hatch, so that it provided that Mr. Hatch could not walk the streets after certain hours unless accompan-

Mr. Hatch interposed to deny the remark that the bill had been sent to him, and Mr Rierdon, said: "Then you deny the paternity of your legislative child. The bill was finally sent to the Cities Committee, where the curfew will be rung on it for this session. The color of the State flag is to be changed from buff to blue, the Assembly to-day passing Senator Ellsworth's bill providing for that change.

Assemblyman Scanlon has introduced a bill sent to him by the Building Department of New York city. It provides that the Board of Building Commissioners shall comprise five members to be appointed by the Mayor The board is to hold daily sessions. Branch of the obard is to hold daily sessions. Branch of the chair species, hooks and papers relating to buildings in that borough are to be kept therein. The salary of the President of the commission:

Assemblyman Seymour has introduced a bill regulating the use of highways in regard to vehicles turning out to perroli the passage of other vehicles on the road. The bill is designed to do away with the confusion of foreigners who make touring trips of this country and who cannot seem to comprehend the rules of the road as compared with those in vogue on the Contineur. The bill provides that any vehicle, or the rider of driver of a horse or other animal, overtaking another shall pass on the left side of the overtaken vehicle. When received to do so the driver or person having a barge shall as soon as possible, turn to the right so as to allow any overtaking vehicle, horse or other animal, free passage on the left side. In turning corners to the right they shall keep to the right of the centre of the road, but in turning corners to the left they shall pass to the right of the centre of the intersection of the two roads. No person shall travel on a road or bridge with a sleigh or sled drawn by one or more horses unless there are at least three bells attached to some part of the hirness. Any person neglecting to comply with any of the provisions of this act will be liable to a fine of 55, in addition to all damninges caused by neglect to obey it.

visions of this act will be liable to a fine of \$5, in addition to all damages caused by seglect to obey it.

Senator Malby introduced Assemblyman Weekes's bill aimed at the manufacturers of gambling paraphernalia.

Senator Dowling put in a bill repealing that section of the New York Charter which exempts the old Custom House property from baxation, as it is now controlled by President Stillman's bank.

A bill introduced by Senator Hennessy makes if the duty of the New York City Mu-

nicipal Assembly to make suitable provision in the building code for the prevention of waste in the use of water in all hotels, office buildings, apartment houses and tenements by the obligatory introduction and use therein of self-closing water cocks or a similar device in connection with all water pipes, except those used for water closets, baths and wash trays.

Senator McKinney introduced a bill providing that ferry franchises may be granted by New York city for twenty-five instead of ten years, and that on the ferries operating between Staten Island and Manhattan borough a passenger commutation rate of 3% cents shall prevail. The bill also calls for 20-knot Staten Island ferryboats and for toilet and other conveniences thereon.

Senator Stater latroduced a bill approposition of the

for toilet and other conveniences thereon.
Senator Slater introduced a bill appropriating \$400,000 for the preservation of the Palisades. Senator Dowling submitted a bill incorporating Archbishop Corrigan, the Right Rev. John M. Farley, Arnie S. Arnold, Annie L. Haggerty, Marion F. Gurnley, Robert J. Hoguet and Eugene L. Barnard as "St. Rose's Settlement of the Catholic Social Union." The object of the corporation is to improve the social, intellectual and religious conditions of poor Roman Catholics, and to protect and befriend Catholic immigrants, especially those ignorant of the English language. The corporation may hold \$200,000 worth of property and establish branch settlements. Senator Elsberg introduced a bill empowering the United States Mortgage Company to establish branch offices anywhere in the United States for the transaction of a mortgage and banking business.

THREE MORE BILLS VETOED.

one bill to every six he has signed. Senator Slater's bill increasing from \$10,-000 to \$15,000 the appropriation to enable the payment of the salaries of New York city employes who served in the Spanish war was vetoed by the Governor for reasons

stated as follows: "While the object of this bill may be commendable from some points of view, and the city has raised a certain amount of money heretofore for the same purpose, I am unable to approve the bill, as I believe it is within the prohibition of section 10 of Article Vill. of the Constitution of the State of New York. It seems to me that the purpose of this bill comes directly within the prohibition above

"It is provided by the Constitution that 'No county, city, town, or village, shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual, as sociation, or corporation, nor shall any such county, city, town, or village, be allowed to streets after certain hours unless accompanied by a guardian. Mr. Hatch wanted to amend the bill so as to make its provisions general and moved to strike out the enacting clause, but did not succeed. Mr. Rierdon made one of his characteristic humorous speeches, saying that this was a companion freak bill to the one of a few weeks ago which provided that a boy should be thrashed if he raised the flap of a circus tent, or be sent to taxing from the current are thoroughly considered in this opinion and the doctrine is there laid down that the Legislature cannot authorize taxing for the purpose of making gifts or taxing from the purpose of making gifts or taxing from the purpose of making gifts or the purpose of the purposes.

BICYCLIST COULDN'T BORROW. Peck of Trouble Behind the Scenes at the Dime Museum Till He Sent Them Back -- They're 6-Poot Waist Measure and No. 5 Shoe Size Garments. and Therefore Uncommon

They were not like any other pair of tights, ther in color or in shape. They were, on the contrary, paragons of their kind, unique in brilliancy and Gargantuan in proportion. The pale hue of ordinary professional hosiery had nothing in common with their bright pink, which challenged the attention of the onlookers like the blaring of brass instruments. Along the edge of the waistband they measured nearly two yards, and yet their stocking part indicated that their owner could feel comfortable in a number 5 shoe They were hanging on a nail driven for

that particular purpose into the wall of their owner's private room, right opposite the door which she had left open while she went out for a few moments. The canal advocates have charmer, and no dark forebodings warned her of the impending catastrophe. Her brilliant nether garments in the meantime happened to be passing. It was a second's work for the stranger to step into the room, unhook the tights from the nail, push them under his coat and disappear. The crime had hardly been committed when a voice was heard yelling from below: Youse fellers up there better jump into

Freduction of the disappearance of her precious tights nearly broke the heart of Miss Amelia Hill, champion heavyweight bicyclist of the world. All her 400 pounds avoirdupois shook with emotion, while tremblings coursed like electric currents from the crown of her head to the sole of her foot, a distance of exactly 4 feet a inches. She was due to appear in a few minutes on the stage of the dime museum, above which her room is strated. She could not make her appearance without tights—the very thought of it made her blush—and her out of door garments spoile i the effect of the entrancing fullness of her form. A new pair of tights might be made out of three or four pairs of the common kind, but how would they look? There was nothing left for Miss Hill to do but to postpone her appearance and try to recover her stolely property. CANAL MEN SEE THE GOVERNOR. They Urge an Enlargement of the Canal to Meet Demands of Modern Transportation.

ALBANY, March 27.-The committee in structed by the Senate Commerce Convention held at Syracuse yesterday, to wait upon Gov. Odell and present to him the resolutions adopted by the convention strongly favoring a 1,000-ton barge canal saw the Governor late this afternoon. The committee was composed of George Clinton of Buffalo, Frank Brainard of New York, John Laughlin of Buffalo, T. S. Fassett of Tonawanda, G. H Raymond of Buffalo, Aaron Vanderbilt of New York. S. Christy Mead of New York. Willis H. Tennant of Mayville. Samuel Beach of Rome, John D. Kernan of Utica and Frank S. Gardner of New York

John D. Kernan of Utica, as spokesman for the committee in the absence of Mr. Clinton read to the Governor a memorial, and in response Goy. Odell told the committee that he stood for the proposition as recommended in his message, that is, the completion of position, to introduce a bill within a few days which will provide for an expenditure of street. The son and lawyer, Mr. Stillwell shed their lustre through the open door into | \$28,000,000 under a changed plan, which will the hallway, where just then a strange man | provide for nine feet of water over aqueducts | liminary motions in the case. and mitre sills and other constructions, as well as on the other portions of the Frie Canal

The 1895 plan provides for eight feet of water only at such places. The new plan suggested is to give nine feet clear depth between Albany and Buffalo, and would allow the use of 420 instead of 325 ton boats to be 125 feet long. The proposed plan also contemplates the lengthening of one tier of locks at each point along the canal where they are now in use, so that two boats could be locked through at once, and of the lengthening of one lock on the other tier. It also contemplates the lengthening of the Lockport locks and the abandonment of the "sixteens" at Cohoes by canalizing the Mohawk River to get around that point. The Governor save he would not oppose such a scheme if the canal advocates could get the Legislature to agree to it, but he thought the completion of the 1895 improvement was a big advantage for the canal people to gain under the circumstances this year. The memorial presented to the Governor by Mr. Kernan says.

It was the deliberate judgment of the by the necessities of the present transporta-tion situation, and that to do less than pro-posed would not finally solve the question of canal enlargement in such a way as to re-cure for the future the absolute safety of the commercial supremiev of New York. To place the canals of the State upon a compe-tent basis with its Canadian rival and the great rallway combinations that now control the transportation situation between the East and the West requires, as expressed in the resolution, such an improvement and ex-

he resolution, such an improvement and ex-benditure as would be made, were the canal-tate railways that had virtually been unin shince 1808 s believe a hat less improvement than commercial interests of the State, as represented by our convention, most emphatically affirm that the canals have not outlived their usefulness, and that improved and enlarged to meet the demands of modern transportation they are more vital to the present and future commerce of our state than they ever have been in its development. There is not a railway transportation line in the country to-day baying competition which would not have outlived its usefulness many years ago had it been left without improving its facilities for one quarter of the time that the Eric Canal has remained at its present capacity.

RATHBONE UNDER SURVEILLANCE. Has Three Days in Which to Furnish New Bonds

The Gas Company Charges. Special Cable Despatch to THE SUN. HAVANA. March 27 - Ex-Director of Post Rathbone, whose bondsmen refused yester day to continue security for his appearance to answer the charges against him in connection with the Post Office frauds, has three days in which to furnish other bonds. He is now under the surveillance of a police officer. Sefor Lopez, a former bondsman, says that the reason for discontinuing his guarantee was that Rathbone or his lawyers did not pay the taxes on the certification of the bond. amounting to \$62. Senor Lopez saw no reason why he should pay this tax. It is said here that this is a mere pretext, and that the real reason for Senor Lopez's withdrawal was that he had been worked upon by enemies of Gen. Wood, who wanted to give Rathbone a chance to make a row and stir up his friends in Washington to attack Gen. Wood.

The Fiscal, who is investigating the gas company scandal, says there is nothing official to divulge as yet. The Discusion says that Mr. Johnson, a shareholder in the company, takes the charge that Seffores Rubens and Quesada made use of the official places to obtain money from the company The Lucha publishes an intervew with Senor Rubens, in which he says he received a proposal from the gas company to try to get the tariff on crude petroleum reduced. But as unloading at Buffalo will be necessary, even with 100-ton barges, I cannot see that the conference of the members of the Senate Cities Committee and those members of the Senate Cities Committee and those who have been here at work upon the centre of the members ince yesterday. The Republicans have insisted upon the reduction of the Mayors. Cooper of Wisconsin, chairman of the Com to investigate the conditions there, said to-day that he believed the Constitutional conof the amendment was more in regard to courteous regard for the feeling of the Cuban people. He had been assured that if a computitive of the convention had been invited to Washington for the purpose of arranging with the President the basis of relations which would exist between the two countries the entire matter would undoubtedly have been agreed upon through negotiations. Mr. Cooper, thought, however, that the irritation caused by the Platt amendment was rapidly passing away and in a short time it would be accepted. The best interests of the island, would, he thought, be served by the delay.

STICK RIGHT TO IT And Coffee Will "Do You" Good and Brown, if You Are Highly Organized

It is remarkable how persistently men or women will stick to a drug through thick and thin, even after they become convinced that the drug is slowly killing them.

This is illustrated thousands of times every day. A sample case is that of F I. Wolford of Columbus, O, who says that all his since a boy when he began drinking coffee. he has been anything but robust, or even in what might be termed good health. He has tried all sorts of drugs and tonics, and consulted many doctors. He out tobacco, avoided all intoxicating drinks, stopped and ing pastry, and took life easy as far as work. was concerned, but the same old trouble con-He stuck to the coffee because he said.
